Custom Brand Your FastSTATS Reports!

You can add your logo to the top right corner of any of our reports.

Need Help?
Try using Adobe Acrobat XI Pro. Here is a link to download the software*:

http://www.adobe.com/cfusion/tdrc/index.cfm?product=acrobat_pro

Disclaimer: This link is just a suggestion. We are not promoting or endorsing any of the software, the provider, or the website in this link.

## How to Place an image in Adobe Acrobat XI Pro

1. Choose **Tools** > **Content**

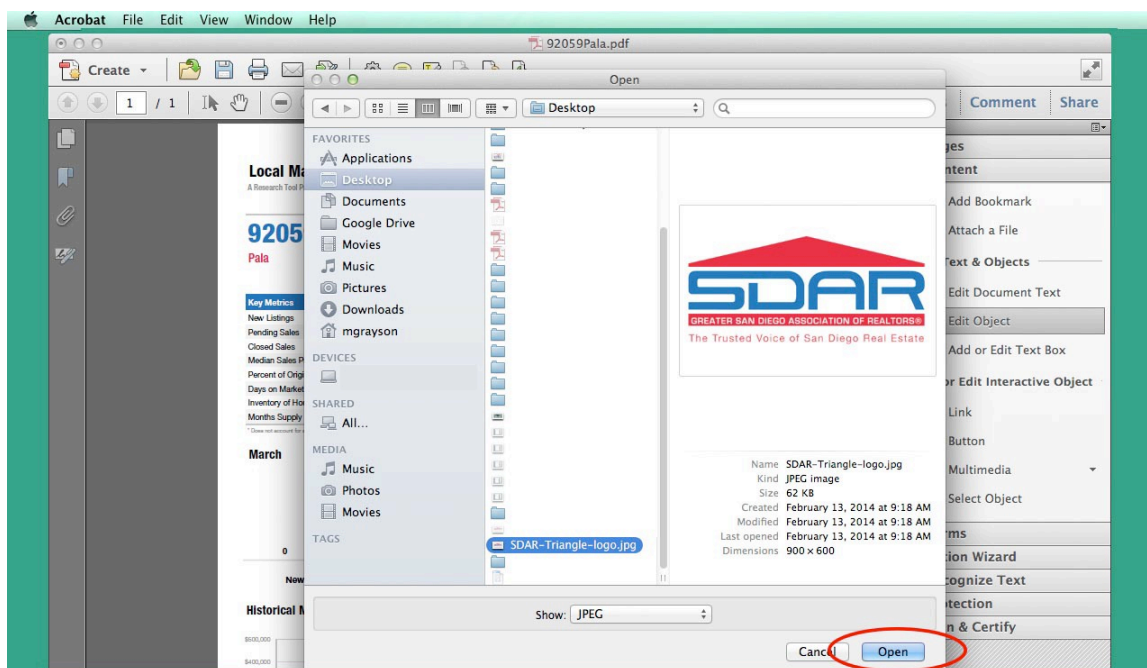

2. Choose **Edit Object** in the content menu

3. **Right‑‑‑click** on the page and choose **Place Image**

4. Select an image and click **Open**
   The image needs to be a: BMP, GIF, JPEG, JPEG 2000, PCX, PNG, or TIFF

5. The image will appear on your page.

   To scale the image: Place your cursor over the bottom left corner of the image box and drag.

   To move the image: Use your cursor to drag the image to the top right corner.

Congratulations! You're all done!
Remember to save your document.
